

# WHEN YOU **KNOW** YOU CAN DO IT **BETTER**, YOU SHOULD.

**Saving customers money and skimping on quality is a recipe for disaster in the safety market.**

**That's why we created Brass Knuckle®.**

- We are a dedicated safety specialist.
- Global supply makes it possible for us to apply our expertise to the research and development, manufacturing, product testing, and supply chain processes for our own personal protective products.
- We don't manufacture everything. We choose carefully. We identify gaps in existing product mixes. We recognize areas where improvement is needed.
- Can't others do the same? Presumably, but high quality and reduced cost is a bit of a challenge and it seems we are just better at it.
- Brass Knuckle® product has a great price point. As good or better than any. But we bring no product to market unless we can improve application-based safety and compliance. ***These are our ONLY considerations.*** Please compare our Brass Knuckle® quality to any one.
