

INTRODUCING

We are launching **five new products**, each driven to inspire **compliance in different ways**. Why? When eyewear fits right, feels good, and looks great — the protection stays on. This increases your productivity and reduces the potential for accidents.

All the following protective eyewear have ANSI-rated hardcoated polycarbonate lenses

## LUNA BKFIX-3001

Lens colors: Clear, Smoke

- One-piece lens in clear or smoke
- Ultra-lightweight, weighing less than one ounce
- 100% polycarbonate construction
